Florida Landscape Show 2009 by Jillian Mann

I attended the Florida Landscape Show in Orlando, FL on October 2. There were some really neat booths at this year's show. Here are some pictures taken from the show.

Inside this issue:

Croton 'King of Siam'

This croton can be used as a mass planting or as an accent plant. Hardiness to Zone 10, this requires full sun/partial shade. These are from tissue culture and cuttings.

Available as 72cp

Information provided by AG3, Inc.

Pink Home Run Roses

This is a new variety of Weeks Roses, which is available for shipping starting at the beginning of January. These have rounded, bushy habit and an almost continual bloom with a speedy repeat. It has absolute black spot resistance.

Available as 72cp, 32cp and 3.5 in. (54cp)

Information provided by Greenheart Farms

Wrap-up of The Landscape Show 2009 by Liliana Delgado, M.S.

I was glad to attend the Landscape Show in Orlando. It is always a great opportunity to see several Florida and Caribbean customers, as well as some of our vendors. The exhibitors showcased trees, landscape plants, perennials, foliage, ferns and other colorful plants grown from south Florida to the Southeastern US.

There were some plants that really stood out for me. They included the new Philodendron 'Rosado' from Oglesby and an incredible assort-

ment of Edibles produced from tissue culture from AgriStarts. Grandiflora featured several interesting plants, including; Agastache, Lantana depressa, Aloysia virgata, Colocasia Mojito and Tecoma stans. There were two plants that really caught my eye at the show, Pandanus baptistii and Dianella 'Green Gold'. These are two great gold-green variegated plants.

In addition to the extensive trade show, numerous events promoting certification, business connections. Along with free demonstra-

tions, classes were also offered on various topics. Sam McCoy from Ozbreed presented a class on "Water-wise Landscaping: Groundcovers" that I was able to attend and was happily surprised at the high attendance for this important topic. These included the lines of Celebrated Plants™ and Foliage First™ as well as Pennisetum 'Pennstripe'. His class also covered the importance of location and plant selection for landscape design.
