### Celosia 'Kelos' Series

Celosia Kelos are compact-growing, long lasting, full sun plants. They tolerate a wide range of temperature conditions, are suitable for indoor or outdoor use, and will bloom for up to 12 weeks. The colors are dynamic and the plant structure is full and well branched. Cuttings root very quickly (usually 3-4 weeks) sticking directly into a 4" pot.

Available to ship: Spring 2012
