2009 Texas Nursery Landscape Expo by Tim Mitchell

Tim Mitchell represented Bill Moore & Co., Inc. in Dallas, TX for the trade show. Below are pictures taken of the booth.

Plumeria, Heliconia, Dianella G & G

It appeared 'booth sales' were down slightly from years past but interest level in our booth kept me moving and talking almost non-stop. I found myself multi-tasking (adding replenishment catalogs to the literature rack while talking to current and possibly new customers;

all while deciphering my plant signs).

The main area of interest seemed to be evenly divided between the 'Celebrated Plants' (Lomandra & Dianella), all things Succulent; and of course, the material we import from Thailand

Sun Parasol Mandevilla

(Plumeria, Adenium, Dianella, Furcraea and more).

The NEW 'Green & Gold' Dianella now available from our Thai operation seemed to catch everybody's eye.

Featured Plants- Edible Plants

We are currently seeing a trend that consumers are increasingly interested in buying edible plants, including herbs and fruits to grow on their own. We now have a new line of food producing plants. The following plants are from tissue culture and are available in the 72cp and have a 3 month grow time for sown-to orders. Please call for a complete catalog of the edible plants line as well as availability.

Vaccinium (Blueberry)-15 varieties (some N/A in CA and OR)

Rubus (Blackberry)-2 varieties

Carica (Papaya)-1 variety

Ananas (Pineapple)-3 varieties

Ficus (Figs)- 4 varieties

Future Order Reminder

Now is the time to order your plants for future ship dates. We are seeing it more and more that there aren't as many plants on the availabilities as we are used to seeing.

With this being said it is crucial that orders are

placed in advance. If you have any questions regarding when to order for certain plants, please contact your local sales representative or the office. Also by placing orders early, you might be able to qualify for order early discounts offered by some of our suppliers.
