Brugmansia

Alba

This beautiful plant reaches a height of 6-7'. It is a tree type with leaves clustering on the ends of each branch. There are 8-10" pure white blooms. As night falls, this cultivar exudes a strong fragrance.

Insignis Pink

These have 8-10" trumpets. Their floral shafts are a pale pink that goes into a deeper pink at the trumpet's flare. This is a great bloomer and moderate/fast grower. Height can reach 8'. This blooms are very fragrant at night.

Charles Grimaldi

This Angel Trumpet has beautiful golden yellow blooms that are 10-12" long. This is a fast grower and best bloomer of the Brugmansias. Plants can reach a height of 10' in a single growing season. Very fragrant.

Sun Ray

This Brugmansia has bright lemon-yellow blooms that are 12". It emits an intoxicating fragrance throughout the year. This is a moderate grower and good bloomer. Can reach 6-7' in height.

Cypress Gardens

For this variety, young plants often flower at 3' in height with dozens of trumpets opening at once. This is a beautiful pure white bloomer. This Brugmansia is great for containers.

Super Nova

This Angel Trumpet has beautiful enormous blooms. It can reach 3-6' in containers. These brilliant, white blooms are 12" long and almost as wide. Flowers start in the spring and will bloom until the first frost.

Ecuador Pink

This Brugmansia has long, pink trumpets that turn their fluted edges upward. It can grow from 3-6' in containers. It has dark pink blooms and is very fragrant in the late evening.
