OVER 200 YEARS OF COMBINED
NURSERY EXPERIENCE

Let Sunshine horticulture's professionalism &
experience work in your favor

OUR FACILITY, PRODUCTS & SERVICES

We produce a wide assortment of quality liners from tissue culture, seeds and cuttings to meet the needs of the interior foliage and landscape industries.

THE VALUES

We believe strongly in team work and customer satisfaction. We value the dedication of our talented staff and we are motivated to be a progressive company that upholds the expectations of our customers while being socially and environmentally responsible.

THE BUSINESS

Through strategic alliances with well established, globally located, state of the art tissue culture labs, the company has maintained a reputation for delivering quality liners and micros on a consistent basis with competitive pricing.

THE PURPOSE

Sunshine Horticulture, LLC was founded in 2004 to provide quality liners and micros to the horticulture industry, both domestic and overseas.
