# Introducing the Tuffy Plant Collection™

**tough plants for smart gardens.**

Each of these tough, low-maintenance plant varieties was bred and specifically selected to provide landscape professionals and homeowners alike with ornamental plants that create solutions to common landscape challenges. Each variety not only looks great but also possesses its own unique landscape benefits that will complement any low maintenance landscape. All Tuffy varieties are drought tolerant (some more so than others), exhibit improvements in environmental tolerances and also provide aesthetic improvements for their species.

Inside:

The Tuffy Plant Collection is offered in partnership with DIG Plant Company. For more information, visit us on the web at [www.tuffyplants.com](http://www.tuffyplants.com).

DENSE, CLEAN FOLIAGE \* MID-SIZED \* DISEASE RESISTANT

Amber Velvet™

Anigozanthos hybrid  
'Amber Velvet' PP18,999

Description	Intermediate height, dense foliage and vivid orange flowers; disease tolerance.
Dimensions	4'h x 1.5'w (+/-)
Position	Full to filtered sun
Soil Type	Free-draining soils
Applications	Mass, group and specimen plantings.

5 ft.

Gold Velvet™

Anigozanthos hybrid  
'Gold Velvet' PP21,178

Description	Dense foliage with large gold flowers; drought & disease tolerance.
Dimensions	4-4.5' h x 1.5' w (+/-)
Position	Full to filtered sun
Soil Type	Free-draining soils
Applications	Mass, group and specimen plantings.

5 ft.

Regal Velvet™

Anigozanthos hybrid  
'Regal Velvet'

Description	Clean, dense foliage and green & red flowers; drought & disease tolerant.
Dimensions	4.5-5'h x 3'w (+/-)
Position	Full to filtered sun
Soil Type	Free-draining soils
Applications	Mass, group and specimen plantings.

5 ft.

Ruby Velvet™

Anigozanthos hybrid  
'Ruby Velvet'

Description	A semi-dwarf habit with deep red flowers; drought & disease tolerant.
Dimensions	2.5-3'h x 1.5'w (+/-)
Position	Full to filtered sun
Soil Type	Free-draining soils
Applications	Mass, group and specimen plantings & large containers.

4 ft.

# Tuffy Landscape Kangaroo Paw:

**vivid colors, quick to establish, dense clean foliage...**

From a long-time kangaroo paw hybridizer, these kangaroo paw were created using the big and tough Anigozanthos flavidus, crossed with more dwarf and attractive species to yield intermediate-sized selections that have improved vigor, disease tolerance, frost tolerance and a great display of "kangaroo paw" flowers. Great for Western landscapes.

Position	Full sun to partial shade
Soil Type	Sandy to well drained clayey soils
Applications	Hedging, groupings, topiaries, specimens, etc; drought tolerant

6 ft.

Slim™

Callistemon viminalis  
'CV01' Slim™ PP24,444

Description	Small-tree or large shrub size with a tight, columnar habit
Dimensions	8-10'h x 4-5'w (+/-)
Position	Full sun to partial shade
Soil Type	Sandy to well-drained clayey soils
Applications	Screening, medium-height hedges and specimen plantings

9 ft.

# Flax lily:

**tough grass-like plants for any landscape and all seasons...**

Dianella, or "flax lily", have long been used in their native Australia as tough, drought tolerant groundcovers in streetscapes and other commercial applications. These days, new attractive Dianella varieties like these have gained popularity in home gardens and other high profile landscapes as accent plants and borders. Their natural resilience to drought, evergreen foliage (in milder climates), and interesting foliage textures and growth habits make them an ideal choice for tons of landscapes.

**EVERGREEN FOLIAGE \* ARCHITECTURAL HABITS \* TOUGH PLANTS**

Baby Bliss™

Dianella revoluta  
'DTN03' Baby Bliss™ PP18,883

Description	A small tufting perennial, that has upright to arching blue-gray foliage.
Dimensions	1.5'h x 1.5'w (+/-)
Position	Full sun
Soil Type	Free-draining soils
Applications	Group, specimen, and border plantings & water-wise containers. Very drought tolerant.

3 ft.

Cassa Blue™

Dianella caerulea  
'DBB03' Cassa Blue™ PP17,998

Description	Grassy perennial with gray-blue, sword-like foliage & an upright habit.
Dimensions	2'h x 1.5'w (+/-)
Position	Full to partial shade
Soil Type	Free-draining soils
Applications	Group and mass plantings, borders, or use in large water-wise containers.

3 ft.

Little Becca™

Dianella caerulea  
'DCMP01' Little Becca™ PP18,452

Description	A slowly spreading perennial with a mounding habit & emerald green foliage.
Dimensions	2'h x 1.5'w (+/-)
Position	Full to filtered sun
Soil Type	Free-draining soils
Applications	Use in mass plantings, for borders, and as an accent plant in water-wise gardens.

3 ft.

Little Rev™

Dianella revoluta  
'DR5000' Little Rev™ PP17,719

Description	Spreading perennial with an upright habit; grayed-green architectural foliage
Dimensions	1.5-2'h x 1.5'w (+/-)
Position	Full to filtered sun
Soil Type	Free-draining soils
Applications	Use in mass plantings, for borders, and as an accent plant in water-wise gardens.

3 ft.

SUN TO SHADE \* EVERGREEN \* DROUGHT TOLERANT \* TOUGH

Breeze™

Lomandra longifolia  
'LM300' Breeze™ PP15,420

Description	Evergreen fine-bladed, grassy perennial with an upright to weeping habit
Dimensions	3 h x 3' w (+/-)
Position	Heavy shade to full sun
Soil Type	Sandy to well drained clayey soils
Applications	Group and mass plantings, borders, or use in large water-wise containers.

4ft.

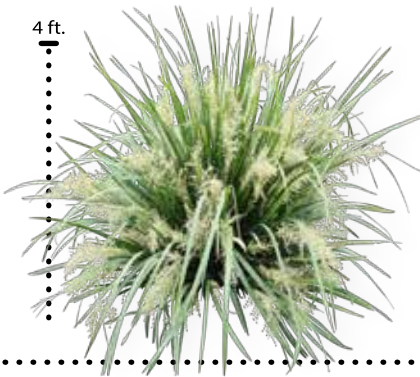

Katie Belles™

Lomandra hystrix  
'LHBYF' Katie Belles™

Applications	Tolerates periodic wet feet; use near bioswales, retention ponds and so on

4ft.

Katrinus Deluxe

Lomandra longifolia  
'Katrinus Deluxe' PP19,262

Description	Tufting perennial with an arched to weeping habit; bright green, grassy foliage
Dimensions	3' h x 3' w (+/-)
Position	Heavy shade to full sun
Soil Type	Free-draining soils
Applications	Mass plantings, group plantings, borders... even large containers.

4ft.

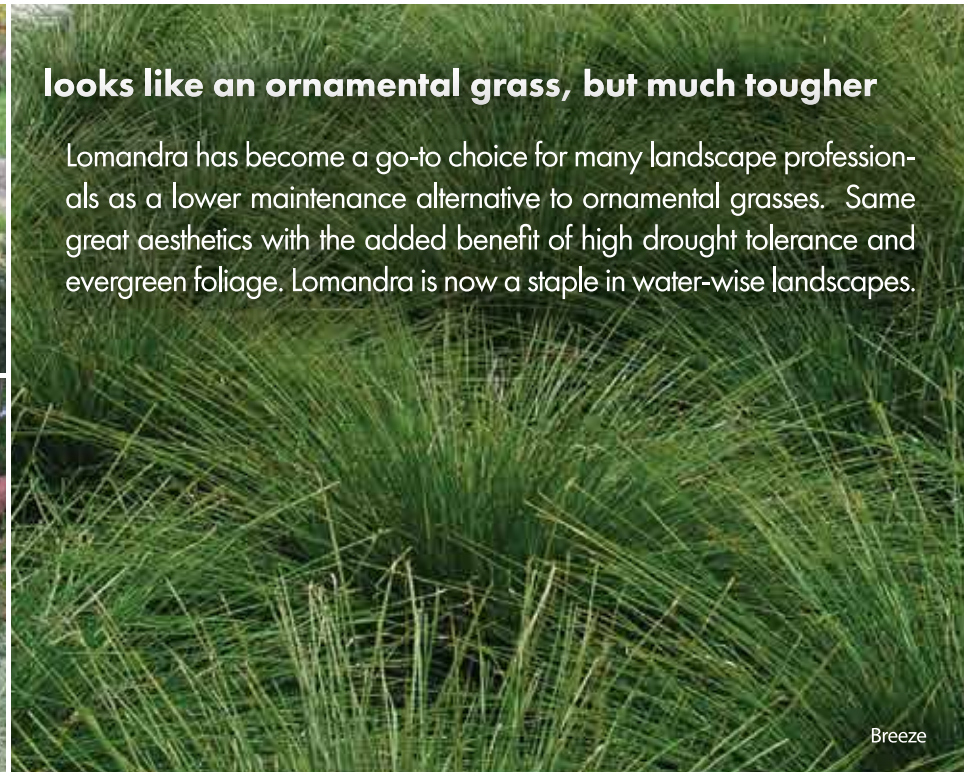

Katie Belles

Katrinus Deluxe

**looks like an ornamental grass, but much tougher**

Lomandra has become a go-to choice for many landscape professionals as a lower maintenance alternative to ornamental grasses. Same great aesthetics with the added benefit of high drought tolerance and evergreen foliage. Lomandra is now a staple in water-wise landscapes.

Breeze

COMPACT \* LOADS OF FLOWERS \* DROUGHT & SALT TOLERANT

Blue Gem™

Westringia fruticosa  
'WES03' Blue Gem™ PP25,674

Description	Medium to large shrub with rosemary-like foliage and dark purple flowers
Dimensions	6-8 h x 4-6' w (+/-)
Position	Full to filtered sun
Soil Type	Free-draining soils
Applications	Coastal plantings; low maintenance gardens

7 ft.

Grey Box™

Westringia fruticosa  
'WES04' Grey Box™ PP25,675

Description	Noted for its gray-green foliage and compact box shape.
Dimensions	2.5' h x 2.5' w (+/-)
