Spring Orders...Time to start planning

Poinsettias

Now's the time to be ordering your Poinsettias for stock plants. We have a wide variety of these beauties available. There are always new varieties coming out on the market, so let us show you what's new! Please give us a call so we can get you an updated list of what we can ship to you.

Flowering Bulbs, Rhizomes, Corms & Tubers

We have numerous flowering bulbs that are great to get in during Springtime. These include Curcuma (Siam Tulips), Caladiums, Crinum, Globba, Eucomis and Astilbe. So give us a call to see what bulbs you can be burying !

Annuals

We have a great network of annual suppliers. From Alyssum to Zinnias, and everything in between, we can fill your Spring annual orders. Some suppliers do offer volume discounts as well as early order discounts. We have a great network of seed and vegetative suppliers of Annuals.

Featured Plants—Edibles

Still trending....Edibles! We are still seeing the market for Edibles in high demand. Whether it is organic vegetables or fruit from tissue culture, we do offer a wide variety of these particular plants. So this month and next, we will be featuring some great Edible selections for your nursery!

Thornless Blackberries (University of Arkansas hybrids--great for homeowners or commercial production). From 72 cp tray to 1 gallon: 2 months:: **Natchez PP 20,891:** early fruiting with large, high quality berries. Great for containers with trellis; disease resistant; Hardy zone 6-10 : **Ouachita PP 17,162:** Medium sized plump berries on upright branching canes. Hardy Zone 5-9; disease resistant

Raspberries: high antioxidants; great for homeowners and commercial production. From 72 cp tray to 1 gallon: 2-3 months:: **Caroline PP10,412:** superb taste & productivity; fall bearing red raspberry that produces on 1 year old canes. Better producer than Heritage raspberry. Hardy Zone 5-9

Figs: Easy to grow, great in containers and for homeowners. Grow as a tree, or prune as a bush. From 72 cell pack tray to 1 gallon pot: 3-4 months; Hardy Zone 7-10:: **Brown Turkey:** Delicious large brownish fruit, great for fresh eating or preserves:: **Black Mission:** Dark purple fruit with bright red flesh; excellent fresh or dried:: **LSU Purple:** Beautiful purple fig with high sugar content; great for fresh eating or preserves:: **Texas Everbearing:** copper bronze skin on large figs, early ripening; good fresh eating and excellent for processing

Blueberries: Self fertile varieties; From 72 cp to 1 gallon: 6 months. Requires low pH 4.5-5.0 with peat and/or pine bark mixture:: **Palmetto PP16,756:** Early fruiting southern highbush from University of Georgia. Excellent flavor, tough plant and one of the best. Hardy Zone 7-10:: **Sunshine Blue:** Dwarf bush with outstanding flavored medium size berries. Great for homeowners; forms a pretty rounded bush. Hardy Zone 5-10:: **Misty:** Bright blue green foliage with very flavorful fruit; good compatibility with Sunshine Blue. Hardy Zone 6-10

We gladly accept the following from customers within the United States.

TPIE & Gulf States Expo 2013 are fast approaching

We're so excited that just around the corner, we will be able to get out of the office and see both the customers and plants!! Here's a look at the upcoming trade shows at which we will be exhibiting.
