Introducing Tuffy™ Plants!

Formerly Celebrated Plants™, the line of drought and heat tolerant grass like perennials has been revamped into a new program, Tuffy™ Plants! The plants are the same, just a new name! We are offering a trial shipment available at discounted rates! Delivered pricing. Give these plants a try and see how they can be a great asset to your local landscape.

www.TuffyPlants.com

Lomandra 'Breeze'

Dianella 'Baby Bliss'

Dianella 'Cassa Blue'

Lomandra 'Katie Belles'

Note from breeder: In 2012, it was decided that a name change was in order for the Celebrated Plants. We wanted a name that more accurately projected the biggest benefit of these plants: they are tough! After much thought, a new name was chosen: Tuffy™ Plants. Whether it be drought tolerance, or frost tolerance, or salt tolerances, or heat or shade or deer or gray water or whatever... there is a Tuffy (or several) that will work in your conditions.

Another great year has passed on our trade show season. We would like to thank everyone who helped turn our booths in to a beautiful display. To everyone who stopped by to see us, thank you so much. It's always a pleasure to see the wonderful people we get to work with. Hope to see you all again next year!
