Featured Plants

Helianthus hybrid Sunfinity™ Sunflower

This new introduction is the next generation of Sunflowers that offers endless blooms all season long. Unlike traditional Sunflowers, these keep growing long after traditional single-stem Sunflowers have bloomed and died. Sunfinity™ is a simple-to-produce crop which can be finished from late Spring to Fall across North America. Sunfinity™ provides incredible consumer value with superior branching, producing multiple flowers per plant, and providing season-long flowering in both gardens and patio containers. Ideal in 2.5 qt. and larger containers for landscape use or larger patio pots.

72cp; Minimum 2 trays
