Time to order Mandevilla & Dipladenia liners

Inventory is getting sold by the minute, so don't wait to get in your Mandevilla and Dipladenia orders. BMC is your go to for young plants! Below is a snapshot of the great lines we are able to offer you.

Bella Mandevilla

Bred for their top performance and neat habits, Bella are extremely versatile in their usage. Due to their natural well branched and tidy habits, they are ideal for both hanging baskets and containers of any size. Tolerant of both hot and cool temperatures, Bella will produce an abundance of gorgeous flowers that are continuously displayed from spring through autumn.

Available as URC and 102cp

Madinia Dipladenia

Limited vining allows growers to produce both small and large pots with less labor, ensuring more plants per square foot and less time pinching and spacing. Class leading disease resistance ensures limited leaf drop and superior sell through at retail.

Available as URC, CC, 98cp and 102cp

Sun Parasol® Mandevilla

The original Sun Parasols have the widest color range, including the first stable dark red and crimson, shades of pink, white and novelties. Plants are natural climbers and suitable for patio containers, hanging baskets, balconies, bedding and even as a houseplant.

Available as URC, 72cp and 21cp (URC select varieties only)

Sundenia® Dipladenia

Sundenia® dipladenias offer the large flowers loved in mandevillas but on a compact, manageable plant. Sundenia's® flowers are 3-5 inches in diameter, double the size of a typical dipladenia, all on glossy green foliage. Colors include Red, White, Coral, a brilliant rich pink with red undertones and new Crimson, a deep red. Available in 21cp and 72cp

Tropical Breeze™ Mandevilla

All of the Tropical Breeze™ Mandevilla are fast growing, early flowering varieties with dark, glossy green leaves showing excellent tolerance to common diseases and insects encountered by commercial growers. They all exhibit heavy branching and intense flowering. 4 varieties available, 72cp

SunParasol® 'Apricot'

Bella® 'Scarlet'

Sundenia® 'Coral'

Featured Plants

Asparagus meyerii (Foxtail Fern)

Asparagus meyerii, commonly called asparagus fern, is noted for its dense fern-like foliage which forms an arching mound that matures to 1-3' tall spreading to 3-4' wide. It is not a fern, however, but is a member of the asparagus family.

Zone 9-11

Available in 72cp and 4inch

Tulbaghia violacea (Society Garlic)

Tulbaghia violacea, commonly called society garlic, is a tender perennial that is native to grassland areas in southern Africa. It somewhat resembles garlic chives (*Allium tuberosum*) in appearance.

Zone 7-10

Available in 72cp and Bare Root

Schefflera arboricola

Schefflera arboricola, commonly called umbrella plant or dwarf schefflera, is an evergreen shrub or small tree that grows in tropical climates to 10-25' tall. It is native to Taiwan.

Zone 10-12

Available in 72cp and 4inch
