Veranda® Roses

The Kordes® Roses of the Veranda® collection are reminiscent of the English garden Roses, but perform like modern roses, offering abundant nostalgic blooms on a compact, vigorous plant. Decorate terraces and patios with these exciting, compact floribunda Roses. Combine with annuals and perennials for season-long flowering. Extremely disease-resistant and excellent in both containers and bedding applications. This elegant repeat-bloomer will not shatter during shipping and will display romantic blooms and glossy foliage all season long.

Available in 32cp and 72cp

This Sempervivum has blue-green tips with a red center. High light is beneficial.

50cp
USDA Zone: 3-9

THANK YOU!

These last few months have been tough, if tough is even a strong enough word to describe it. We're all in an unprecedented time that none of us could have predicted.

While we are all accessing our businesses and what needs to be done or

changed to keep up with things, we want to say "THANK YOU" to our wonderful customers and vendors.

We know that it will take some time for all of us to bounce back from this, but we will do so, stronger than before!

***Plant strong,
bloom stronger***
