 Vinca Tattoo™ series

**Featured Plants**

**Agave 'Blue Flame'**

Agave 'Blue Flame' is a beautiful clumping, hybrid agave that brings a tropical feel to any landscape. Rosettes of glaucous blue-green foliage resemble a blue gas flame, with gracefully incurved leaf tips. This solitary grower has flexible leaves with finely serrate margins and terminal spine. Blue Flame with make a striking contrast in any garden!

**Agave 'Blue Glow'**

This smaller agave sports blue green leaves with a superb red edging that only looks better when highlighted by backlighting the plant in afternoon sun. The margins are spineless but this Agave has a terminal spine at the end of each leaf. 'Blue Glow' is a slow grower and keeps to its self with a solitary growth habit making it a great selection for smaller spaces in the garden as well as container plantings. Blue Glow Agave reaches just 2' tall with a 3' spread at maturity.

**Both varieties are available in a 72cp, FOB Waller, TX**

**Agave 'Blue Flame': Booking now for January 2022 shipping**

**Agave 'Blue Glow': Booking now for June 2022 shipping**

**Hollywood™ Hibiscus line now requires decorative pots**

J. Berry Nursery, the breeder behind the Hibiscus Hollywood™ line, has made some adjustments to the requirements to the program.

The program now requires decorative pots for the finished plants. You're able to purchase the

branded pots through us. If you choose not to put the plants in a branded Hollywood™ Hibiscus pot, you are able to sign a waiver, but the plants must still be in a decorative pot, not the standard black growing pots. Call us for more info!
