Coleus Main Street 'Dutch Mill Drive'

Coleus 'Dutch Mill Drive' is a newest introduction to the Main Street Coleus collection. The Main Street series is very uniform, boasting bright colored Coleus that work in sun and shade application. They are medium vigor and naturally well branching.

Main Street are also selected to be weather tolerant and late to flower in the garden. The selections in the series are all matched in vigor, with height 16" and width of 14" when grown in a 10" container with one pinch.

When grown on a short schedule, Main Street can also be used as a direct stick pack program, as well as a nice quart assortment program. Available as URC and RC.
