What is a clump?

A clump is a group of bibles. These will take off faster than the bibles once in a pot. An 18 week lead time is required for orders of clumps. They will be cut back. For the Liriope 'Isabella' we don't recommend ordering them as cut as they are a more compact variety.

Clump

Clump-cut foliage

When should I order the Daylilies?

The Daylilies can be shipped year round, as with all the plants we offer from Costa Rica. The supplier recommends receiving them in Fall for late Spring and Summer sales or receiving them in Spring for late Fall and early Spring sales.

Shipping Information

Orders are cut, cleaned and packed on Mondays and Tuesdays of the week prior to the requested ship date. They are then received by the freight forwarder in Miami over the weekend and shipped out to you as soon as possible!

FOB: Miami, FL
