Ordering Information

- Order by percentages of the color groups listed (i.e. 50% Red, 20% Yellow, 30% Splash Petals); or by specific cultivars
- Premium size: Packed 50-75 per box; minimum order 100
- Liner size: Packed 200-250 per box; minimum order 250

PREMIUM

These are mature, well branched plants pulled from 13 cm (5.5") pots – they have two main grafts that have been cut back for branching. Target weight is 175-200 grams. These plants are all well beyond minimum flowering size. This is a great 'Root and Sell' program. The plants are ready to be potted in 5" or 6" containers and within 10-14 weeks the plants will be flowering and saleable.

LINER

These are young grafts shipped 3-4 months after graft union is healed. We select Liners with two main branches and very well healed graft unions. These are shipped out of 6 cm (2") square pots and are vigorously growing young plants that will take off rapidly once planted. Weight is 75-90 grams.
