

# Liners - Live Availability

The bi-weekly availability represents "in process" plants for the next 12 weeks, less those which are already committed to orders.

All numbers represents # trays available (72 cp unless noted otherwise).

The prebook column indicates the first available date for pre-booking, any quantity unless specified otherwise (for example, 10k indicates 10,000 maximum plugs).

For plant availability beyond our 12-week "in process" list but sooner than the pre-book column, please check back at least every two weeks. Our markets are very dynamic and the numbers evolve rapidly.

Red availability: Items are OUT OF SEASON. Availability is conditional.

The following items have sporadic germination and all confirmations are conditional and subject to seasonal availability: Australian Tree Fern, Tasmanian Tree Fern, Cinnamon, Royal, Giant Chain, Alpine Water (Max prebook 10 t
